GRID REFERENCE

OV113113 (511260, 297705)

WGS84 COORDINATES

52.5654, -0.358351

NEAREST POSTCODE

PE8 6LY

The nearest postcode is an aid to location, and does not necessarily reflect the actual address of the monument. Most scheduled monuments are not occupied buildings and have no postal address or postcode of their own. In rural and coastal areas, the nearest geocodable postal address may be several miles away.

Notes

A bowl barrow situated 450 metres north east of Water Newton Mill. The barrow mound has been partially spread and now measures 35 metres east to west and 26 metres north to south. The northern side merges gradually with the general ground level, but the southern side rises to a height of 1.5 metres. Scheduled.

NEAREST POSTCODE

PE8 6LT

The nearest postcode is an aid to location, and does not necessarily reflect the actual address of the monument. Most scheduled monuments are not occupied buildings and have no postal address or postcode of their own. In rural and coastal areas, the nearest geocodable postal address may be several miles away.

Notes

Cropmarks of a large enclosure covering five acres and bounded on the west, north and east by straight ditches, and on the south by the old course of the River Nene. Within it air photographs show indistinct traces of what may be three sides of a courtyard villa, and also two small enclosures in the SE corner. It is probable that the southern half of the site has been destroyed by the river. Scheduled as a Roman villa. *English Heritage*
